
Know project management for consulting. See *how* to put it into practice.

Project management for consulting Training course for business consultants 22-25 November 2016, Romania

Learn the project management skills to meet the demands of sophisticated clients and deliver larger and more complex projects. This course provides the tools, methodologies and processes to deliver high quality projects, on-time, within budget, and within minimal risk. Held in Romania on 22-25 November 2016 (four full days), this course gives a complete overview of project management for consulting.

Know how to apply project management to consulting

This course will help you:

- Understand how to apply project management principles and best practices specifically to consulting projects
- Employ these best practices across every phase of the project from initiation through planning, execution, monitoring and control and closing a project
- Develop tools for project scoping, creating a project plan, assessing and managing project risk, scheduling, budgeting and budget control, controlling and managing change
- Learn how to control and manage the contracting process
- Estimate and schedule task work, duration and costs with confidence
- Implement risk management techniques and mitigation strategies
- Lead a project team and monitor project progress through successful execution

The course is interactive and includes practical exercises and real life examples, walking you through a sample consulting project from beginning to end. The trainers are all experienced project management and consulting practitioners, who have seen the difference that skilful project management makes. You will also have the opportunity to meet other consultants, learn from each other experiences and develop a professional network

Opening up opportunities. We know how.

The training will be delivered by **Ian Glenister** and **Natalia Starynska**, who have been selected by the EBRD because they are experienced practitioners, who know what it takes to successfully manage a consulting project.

The training course fee is EUR 500 and the course will be delivered in English. The price includes training hand-out materials, refreshments (on-site coffee breaks and lunch) and parking. The training will be organized at a premium location in Bucharest, InterContinental Hotel. The class is limited to 20 participants.

To participate please fill out the attached application form by **COB 4 November 2016**. For additional inquiries please send an e-mail to knowhowromania@ebrd.com or call us on 021 202 71 42.

Grow your consulting business? *Know how.*

At the European Bank for Reconstruction and Development (EBRD), we don't just provide finance. We also provide business advice to small and medium-sized businesses in 25 countries, working with more than 6,000 consultants and over 1,500 international experts.

We believe that businesses need professional know-how to grow and stay competitive. But we also know how important it is for consultants to keep broadening their expertise so they can offer truly best-in-class solutions to their clients. The Grow Your Consulting Business Training Series is a set of training courses that shares essential skills, resources and techniques for effective and impactful consulting, as well as for running a successful consulting business. So, whether you're an expert looking to use your knowledge as a professional consultant, a young consultant seeking to build up your skills, a senior member of a consulting firm eager to learn about new specialisations or the owner of a consulting business seeking to enhance your business model, get the training you need to step up your game.

There are six courses:

- Management consulting essentials
- Starting a consulting business
- Managing a consulting business
- Marketing and selling consulting services
- Business diagnostics for consulting
- Project management for consulting

Know your trainers

Ian Glenister (PCMI Limited) is a senior project manager (PRINCE2, APMP, APMPQ, MSP, PMP, AEC, SPOC, SMC, SMT), trainer and consultant with over 20 years of experience. He is recognised as a subject matter expert by a number of global organisations and he has worked for various leading companies across the world. With experience in both the government and private sector, he has worked with Waterfall and Agile lifecycles within a wide array of industries. Ian has designed and developed training programmes that are now delivered across the globe, but he can additionally provide practical experience that translates theory into usable methodologies.

Natalia Starynska (Spider Management Technologies Ukraine) is a certified Project Management Professional (PMP) and business mediator, with over 10 years experience in project management, training and consulting. She has conducted PMP exam preparation courses in individual, corporate and open formats, as well as project management business simulations and corporate system optimisation. A passionate developer of people and corporate behaviour, Natalia has also managed four international project management conferences focused on sharing knowledge.
